

Pioche Weekly Record.

THURSDAY, APRIL 29, 1897.

Official Paper of Lincoln County

PUBLISHED EVERY THURSDAY BY

Record Publishing Company.

OFFICE: MASONIC BUILDING,
LACON STREET.

TERMS:
Subscription, One Year, by Mail, \$2.00
Subscription, Six Months, " " 1.25
None Forwarded till Paid For.

Advertising rates furnished upon application at the office.
Entered at the Postoffice at Pioche, Nevada, as Second-Class Matter.
Communications are solicited, but the paper will not be responsible for the opinions of its correspondents.
Delivered by carrier at 50 cents per month.

LOCAL AND OTHERWISE.

Sprains and bruises yield to Trib.
The public schools will close in the latter part of next month.

The total indebtedness of Nye county, April 1st, was \$40,505.25.

Every teamster should have Trib.

All State Line reports hold out promise of a booming camp or two for that section shortly.

Trib does not claim to cure all ills; but does cure all ills it claims to.

Judge Talbot has been holding court in Humboldt county and closed there last Thursday.

Born:—At Pioche, Nevada, on Monday the 20th inst., to the wife of Geo. V. Warren, a son.

Trib is only a liniment; but is the best liniment yet discovered by man. Therefore much is said about it.—Herald.

Hoa. Thos. Wren has left Eureka and established himself at Reno where he will practice law in partnership with T. V. Julian.

C. L. Roe was in town on Tuesday after supplies with which to prosecute work on the locations recently made northeast of Bristol.

The Kansas editor who discovered that Adam and Eve were never married has raised a pretty issue now, hasn't he? asks an exchange.

The railroad company is extending the side track 500 feet west to give the Elko-Gold Creek Lumber Co. room to unload its cars.—Independent.

The official records show that Carson had 5266 miles of wind last month in all. The fastest was the 28th when it came at the rate of 48 miles an hour.

Only seventy years have elapsed since the first railway in the world was finished. During the comparatively short period 400,000 miles have been constructed.

I. D. Hamilton was in town on Tuesday overhauling the telephone line between here and DeLamar. The line has been generally placed in good condition for the summer.

The law library of upwards of 200 volumes, belonging to J. Puojade and which has been kept in the Assessor's Office, has been purchased by T. J. Osborne and moved to the latter's office in the Masonic building a few days ago.

T. R. Hawkins, the Dayton justice of the peace, who discharged Logan, murderer of an Indian, for lack of evidence, has forestalled an investigation by resigning. The fellow he exonerated was afterwards convicted and sentenced to thirty years.

A silver polish can be made by mixing a few drops of ammonia with whiting, and adding enough water to the whole to make it the consistency of cream. It can be bottled and, if corked tightly, will keep as long as desired. It cleans silver without hand rubbing.

Harry Bradley and two companions nearly met death at Dayton yesterday. They were painting the inside of the cyanide tanks and were overcome by the fumes, but were rescued before life was extinct. The other two soon recovered, but Bradley is said to be in a dangerous condition.—Carson News.

The Regents of the State University at Reno have let the contract for the erection of a Mechanical Building to replace the one destroyed by fire. The bids submitted were: George A. Booth, \$3740; C. E. Clough, \$5752; G. E. Alesworth, \$6245; Ryland & Schaller, \$6633; Burke Bros., \$6345. The contract was awarded to George A. Booth.

D. M. Tyrrell died last Wednesday at St. Mary's hospital, Salt Lake City. He was 69 years of age at the time of his death, the cause of which is not stated. Mr. Tyrrell was an old and experienced mining man and followed the business with varying fortune for years, both in California, Nevada and Utah. He was on the Comstock in its palmy days and was a prominent citizen of that town. Later he was general manager of the Raymond & Ely and Meadow Valley mines here. For the past eight years he has been located at Silver Reef, Utah.

A surprise party at the residence of F. W. Dickie on Friday evening last, was the social event of the week. It was a very enjoyable affair, and every inch a success as a bachelor party. The crowd assembled about 9 o'clock, from then on the fun raged till supper time, 12 o'clock. The spread was a most sumptuous one, the table groaning under its weight of delicacies, which would have opened the eyes of an epicure. The evening was passed in singing, instrumental music and what is known as stag dancing. The participants are as one in saying it was the most jolly and enjoyable affair they have attended. At 2:30 a. m. they dispersed.

Flattering Prospects.

Old Fairview mining district, northeast of Bristol, this county, bids fair to come to the front again shortly, if half the hopes now entertained of it prove true.

C. L. Roe and Dave Borland have been prospecting in that vicinity of late and have made a number of important locations. Their best find is a bold, massive quartz ledge, which is traceable on the surface for over 1200 feet, cropping out in places more than eight feet high and carrying an average width for the entire distance of something like thirty feet. Assays are obtainable from every part of this immense outcrop, the lowest thus far taken running \$2 in gold and 9 ozs. in silver. A portion of the croppings at other points run as high as \$11 gold and 40 ozs. silver. All the rock is essentially gold in character, though carrying some lead. The country throughout for several miles is quartzite in character and it is the section from which silica was taken for use at the Bristol smelter in '80 and '82.

The locations were made within the past few weeks only and the owners will follow out the provisions of the new mining law with regard to development work before recording their claims, and expect to have some enviable prospects before this work is completed.

Very encouraging reports come from the Delme mine, south of State Line and about ten miles from Flatstone station in this county, on which the owners have been at work all winter.

An eighty-foot shaft had been sunk on the property, following a wall or seam of porphyry, which was regarded as one of the walls of the ledge. Occasionally lumps of good grade silver ore were encountered and saved and preparations were begun a short time ago to ship this ore to Salt Lake.

The parties set out to excavate just below the mouth of the shaft for an ore platform, but had not in less than three feet when a body of high grade silver ore was encountered, averaging over 100 ozs. to the ton. The boys went to the bottom of the shaft, drifted in the same direction and after proceeding but a few feet opened up a body of similar grade ore as was encountered on the surface, through which they had at last accounts drifted 14 feet without finding any wall.

Shipments to Salt Lake will immediately be made and the boys are much elated over the turn things have taken with them.

Caja Bonanza.

It is announced that Carson City will witness another fistic carnival in the month of August this year and that the term will last ten days. Another meeting between Corbett and Fitzsimmons is being arranged for and if successful this event would be the paramount issue.

On the 20th inst., at New York, Corbett formally challenged Fitzsimmons to another contest but Fitzsimmons is reported to have declared that he meant to pay no attention to the challenge from Corbett or anybody else, as he had earned a rest and meant to have it. He added, however, that he proposed to follow Corbett's example as dictator of the prize ring and his reply was that the latter should earn a reputation as a fighter instead of boxer before he presumed to challenge him.

Failed to Indict.
The grand jury at Belmont last week failed to indict H. Ramsey for the murder of Tom Gillespie, committed last October at Montgomery.

Gillespie, it will be remembered was shot from ambush, a hundred yards or so from the blacksmith shop, while on his way to the mine of which he was Superintendent. The company was in debt and Gillespie had business difficulties with several of its creditors of whom Ramsey was one.

An Indian was suspected of the crime, but so but whether any proof has been obtained against him or not we have not heard.

SCHOOL REPORT.

Report of the Pioche public school for the month ending April 25, 1897.
Total number of boys enrolled, 18; total number of girls enrolled, 12; total number of pupils, 30.

ROLL OF HONOR.
Frank Thompson..... 97
Katie Butler..... 97
Isabel Osborne..... 95
Leonard Carson..... 95
Louise Osborne..... 95
Minnie Hulse..... 95

ROLL OF MERIT.
Ed Deck..... 95
Mary Russell..... 95
Amy Osborne..... 95
Willie Garrison..... 95
In order to get upon the Roll of Honor it is necessary to stand 95 in each subject studied, also 95 in punctuality and deportment.

In order to get upon the Roll of Merit it is necessary to stand 90 in each subject studied, also attain 90 in punctuality and deportment.

MISS LOUISE D. EVANS,
Teacher.

The paymaster of the Pleasant Valley Coal Company went out on the day train from Salt Lake to Castle Gate a week ago yesterday morning to pay off the man. He had with him about \$5000.00 in coin, \$7000.00 of which was in gold. With two assistants he walked from the depot to the office building about 100 yards away, when two men put in an appearance and at the points of pistols took the gold, and made off. They mounted their horses which had been tied but a short distance off, and though posse's were immediately formed, and the word telegraphed in every direction, succeeded in making their escape to the mountains. They are supposed to be a part of a gang of outlaws who rendezvous in the Blue mountains. More than 100 people were in the vicinity when the robbery occurred. A reward of \$2000 was immediately offered for the capture of the robbers.

It is by no means certain that Victoria will appear in the parade at the celebration of her diamond jubilee. If the weather is bad, or if she is feeling indisposed, she will not show up, and those Americans who have astonished London by the high prices they have paid for windows overlooking the route of the procession may get nothing for their money but the sight of a royal pageant with the royalty left out.

WANTED—SEVERAL FAITHFUL MEN OR WOMEN to travel for responsible established house in Nevada. Salary \$750, payable \$15 weekly and expenses. Position permanent. References, Enclose, self-addressed stamped envelope. The National Star Building, Chicago.

FROM DeLAMAR.

Wood, Lumber and mining timbers continue to come in daily in large quantities.

Another addition to the DeLamar mill is being erected in order to put in more cyanide tanks.

Jack Wright (our Jack) will in the future conduct the mail service between DeLamar and Hiko.

Mr. J. McDonough has severed his connection with the April Fool Co., and will depart for Colorado in a few days.

On the 26th the Old Fellows gave their Anniversary ball, and it was pronounced by all in attendance to be a grand success.

While transacting nearly as much business as was done a few months ago, DeLamar is quieter than for a long time past.

Mr. Al. Staton, formerly night boss of the DeLamar mill, has resigned his position and departed for State Line on a prospecting trip.

Quite a number have been laid off at the April Fool mine. Report is that the ore bodies are improving and that fewer men are required.

On Tuesday evening Mr. Joseph Dorsey, and Miss Nellie Morris were united in marriage at the home of the bride's parents, Justice Hoag officiating.

The first good rain of the season came on the 26th inst. It laid the dust and made the transients feel good, as the prospects for good grass are better than for years past.

L. Wertheimer returned yesterday after an absence in California of nearly eight months. Louie V. Wertheimer of Butte, came in also and may remain permanently.

A four-horse team made things lively for a time on Monday. They ran away from the Company's stock yard but were stopped by an excited crowd near Wright & Pomroy's corral.

The Nielsen Bros. from South Eastern Utah arrived in town on the 15th they are musicians of repute. They will give a grand ball in Vieta's Hall on Friday evening April 30th.

The Miners' Union are making great preparations for the parade on May 10th. Mr. P. A. Dix, the April Fool Co's attorney, will deliver an address on the question of "Federated Labor."

China Dick has concluded to sell out his restaurant business. Here is a good opening in this line to any active person. "Dick's" has a first class reputation and has always enjoyed a good run of custom.

Mr. Hartman, formerly proprietor of the Palmer house who departed for the north last fall has returned with his family and declares that DeLamar though dull is ahead of any camp he found in his travels.

On Saturday next Attorney Ben Sanders departs for Carson City in the interests of his clients in the townsite case. Judge O. W. Powers of Salt Lake, will be associated with him. The case is of great interest to the town.

State Line is the talk of the town, some very rich rock has been brought in from there lately. The Ophir claim is reported to be improving with depth. Mr. John C. Lynch one of the principal owners will depart for there in a few days.

George Banovich, of the Silver Dollar saloon, met with quite a loss last week. A burglar entered his saloon after he had closed up and secured a gold watch that he prized very highly, and about six dollars in cash, the thief has not yet been discovered.

The horse race on May 5th will be an exciting event, each horse has plenty of backers, and more money will change hands on the result than on the last race, both horses are reported to be in the pink of condition. The race will be run on the new track in Cedar Wash.

Mr. William Schaefer, an employee of the April Fool mine, met with a slight accident on the 27th. While working in a drift piece of sharp quartz fell from the roof cutting his wrist. He bled considerably. Dr. Hammond dressed the wound and he will be able to resume work in a few days.

The lessees of the Zip Coon property on Tishorn mountain have cut a nice streak of ore which assays in the hundreds. It is near the old Gold Eagle shaft. The lessees are much encouraged and believe with many others that the numerous ledges on that mountain must contain large ore deposits in some section or other.

Idle men are comparatively few in DeLamar at present. Where, a few months ago, a hundred or more were ready to respond to any call for extra work, few are now to be had. The scarcity is due not so much to the additional work here as to the fine weather and reported attractions in other camps, which has caused a majority of the unemployed to set out for new fields.

The spring fever has caught quite a number of the boys, and they are preparing to leave for other climes, one party leaves on the 28th for British Columbia others for State Line while the largest portion leaves for Ely White Pine county. Ely promises to be a good camp this summer. The Chairman group of mines having been sold to California capitalist who intend to put up a mill, electric lights and several other improvements that will greatly benefit the camp.

Stages leave Milford every morning except Monday at 8 o'clock, or immediately after the arrival of the train, and arrive in Pioche in 24 hours. Leave Pioche every evening except Sunday at 4:45 o'clock.

Through Fare each way, \$12.50
Reduction on round trip tickets.
Fought at reasonable rates. For particulars call on A. S. THOMPSON Pioche Agent.

Dangerous Experiment.

The DeLamar Company recently experimented on a plant to filter the oil from the refuse and waste from the engine room and a tank was built for the purpose. A pressure of 80 pounds was put to it, when an explosion occurred, blowing a man some distance and scattering oil all over the surrounding country, but with no one fatally hurt. Another tank of higher pressure was made and this recently went on a fare while two men were setting on top of it, and a pressure of 40 pounds applied. It blew out from the bottom on account of a defect in the steel and the men rejoice at having been on the heavenly side of the tank.—Eureka Sentinel.
